Coding languages

C++, Python, Java

Skills

I am a student studying to become a Frontend Software Developer with knowledge in multiple areas of Computer Science

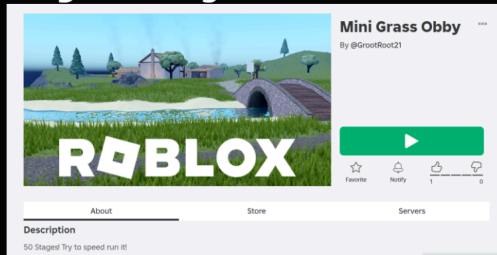

Technical Skills

C++, Java, Python, Javascript, HTML, CSS, SQL

Non-Technical Skills

Communication, Problem-Solving, Teamwork, Critical Thinking

My Projects

I created a Roblox game that was published online using different technologies and skills. For example, I used the coding language of Lua which help code the game. It had challenges such as testing each level and ensuring consistently. Overall, the outcome was a published free game on Roblox.
